Education

Vidyavardhini's College of Engineering and Technology Bachelor of Information Technology CGPA: 7.7	2021–2025
S.V.S, Vuyyuru (CBSE) Higher Secondary — 94.2%	2020
S.V.S, Vuyyuru (CBSE) Secondary — 89.6%	2018

Internship

Unified Mentor <i>Full Stack Web Development Intern</i>	May 2025 – Sept 2025
---	----------------------

Summary: Worked as a Full Stack Web Development Intern at Unified Mentor (May–Sept 2025), gaining hands-on experience in MERN stack development, REST API integration, authentication (JWT), database design, and cloud deployment. Contributed to building responsive UI components, optimizing backend services, and enhancing problem-solving, debugging, and version control skills through real-world project collaboration.

Skills

Languages: C++, Python, SQL

Web Development: JavaScript, Bootstrap, TailwindCSS, React

Backend: Node.js, Express

Database: MySQL, MongoDB

Concepts: Computer Networks, OOPs, Database Management System.

Soft Skills: Problem Solving, Team Collaboration, Leadership, Detail-Oriented, Quick Learner, Communication, Agile and Adaptable.

Projects

ITInteract – Collaborative IT Hub :-	<i>Feb 2025</i>
---	-----------------

- Technologies Used: MERN Stack (MongoDB, Express.js, React.js, Node.js), WebSocket, JWT
- Description: Developed a full-stack web platform to bridge the gap between IT students and alumni for domain-specific mentorship and collaboration.
- Designed structured user profiles, real-time messaging, and task-sharing modules across key IT domains such as Software Development, Data Science, and Cybersecurity.
- Implemented secure authentication and cloud deployment, enabling seamless user access and interaction for over 100 active users.
- **Deployed Link:** itinteract.netlify.app

Tomato - Food Ordering App :-	<i>Nov 2024</i>
--------------------------------------	-----------------

- Technologies Used: MongoDB, ExpressJS, NodeJS and ReactJS
- Description: Developed a beginner-friendly backend application with MongoDB for data management, enabling API integration for a seamless frontend connection.
- Features: Implemented secure user authentication, JWT-based authorization, CRUD operations for product and user data, and session management.
- **Deployed Link:** <https://tomato-food-delivery-app-ngqm.onrender.com/app/>
